

Responsible Alcohol Serving at Trondheim Spektrum during Aqua Nor 2025

A liquor license is the legal right to serve alcohol. Trondheim Catering holds both a food & beverage license and a liquor license for all areas at Trondheim Spektrum. Alcohol can be ordered directly from Trondheim Catering. Alcoholic drinks purchased outside of Spektrum are not permitted to enter the building or to be served.

Responsible Hosting:

Each individual who is served alcohol must be assessed based on their degree of intoxication. A person clearly under the influence of too much alcohol cannot be served more. Norwegian laws require that a person must be aged 18 years or over to consume alcoholic drinks up to 22% ABV. It will not be possible to order alcohol over 22% ABV. In case of doubt regarding the age of a guest, the guest must show valid identification.

All alcohol must be served in tasting glasses and must be enjoyed within the respective booth. A direct consequence of breaching the agreement or the regulations will be that we will have to stop the sale of alcohol to the company in question. It is not permitted to take alcohol out of Trondheim Spektrum.

Your company must appoint a contact person for Trondheim Catering. It must be clear to the employees of Trondheim Catering who is allowed to collect/receive beverages on behalf of the company.
